GERMANS CONCEAL LIST OF DEAD ON U-BOATS

Hamburg-American Line's Tribute to Its Employees, However, Reveals Losses

COPENHAGEN, July 3.—For many weeks, obviously in compliance with orders of the censor, German newspapers have published no death notices from the submarine service, from which conclusions regarding the number of submarines destroyed might be drawn.

The monthly obituary tribute of the Hamburg-America Company to its employees who have been lost appears, however, with eight out of twelve names ascribed to the navy. Nearly all are from the mechanical personnel of the company and it is a fair presumption they were lost in the submarine campaign, because trained mechanics are not assigned to the marine forces in Finlanders, and surface ships are little exposed to casualties.

Recently the same proportion of casualties from other sources from which the submarine personnel is drawn would indicate the submarine losses are inconsistent with the Admiralty assertion that the monthly loss in boats is below ten. Among the dead is Lieutenant Brinkbauer, who was decorated with the Iron Cross of the first and second classes, the usual tribute to a submarine commander.

HERE is a disease of the eyes known as atrophy of the optic nerve, which is nearly always the result of a previous inflammation.

The symptoms are similar to those of cataract. There is a gradual loss of vision without pain.

This is a condition that demands immediate and careful attention if the sight is to be saved.

When your eyes need attention—from whatever cause—do the sensible thing. Consult an Oculist—Physician who specializes in treatment of the eyes.

If glasses are prescribed, have his prescription filled by a competent Optician.

CIVIL WAR CLOUDS THICKEN IN CHINA

Monarchist Chiefs Gather Big Forces to Oppose Republican South

EMPEROR SECLUDED

TIEN TSIN, China, July 3.—The military chiefs supporting the return of Emperor Huan Tung to the throne of China are gathering powerful forces of soldiers to back up the restored monarchy, according to information from Peking today.

One of the leaders in this movement to form a monarchist army in General Chang Huan. It was General Huan who served an ultimatum upon President Li Yuan Hung, demanding his resignation.

The president, it is said, refused to resign in favor of the boy emperor, but said he would resign in favor of the vice president.

In the southern part of China there is much opposition to the reinstatement of Huan Tung. The north is apathetic. Domestic affairs are getting more chaotic and the prospects of civil war looms nearer unless the emperor again goes into retirement and the republican government is restored.

GOVERNOR TO PUNISH FOES; PLANS SHAKE-UP

Many Changes Expected in Few Days on Capitol Hill—Loyal to Be Rewarded

HARRISBURG, Pa., July 3.

Reward for those who stood by him in his numerous contests with the Penrose wing of the party and punishment of those whom he regards as having been disloyal to the administration is said to be in the mind of Governor Humbergh. Developments are expected in a few days that will assume the form of a general shake-up on Capitol Hill.

The Governor is on record as having refused to "go along" with leaders of the Vore faction when they attempted to have him make wholesale slaughter of Capitol Hill employees following the presidential convention last year, but it is said that he now feels the time to be ripe for changes that will let those who have stood by him know their efforts have not counted for nothing. He realizes that they will be marks for the displeasure of organization leaders after he goes out of office, and that if they are to be rewarded it must be within the coming two years.

Turndown by the Senate of some of the Governor's appointees is partly back of the shake-up that is said to be coming, and it is said that after conference with Attorney General Brown, who has gone into the matter very thoroughly, a way has been found to upset the calculations of the Penrose wing and that virtually all of the men who were left out when the Senate failed to confirm them will be taken care of in some way.

Auditor General Snyder is also looking up the law and will endeavor in every way possible to forestall the Governor, even to the point of withholding a lawsuit before countersigning warrants in some cases.

CHIEFS TRY TO HALT STRIKE IN SHIPYARDS

U. S. Agent Meets New York Officials, in Agreement Move

NEW YORK, July 3.

Strenuous efforts were being made today to prevent the spreading of the strike of shipyard employes in the New York district which threatens to impede the construction of food-carrying ships for the European governments.

About 4000 of the 15,000 shipbuilding employes around New York harbor quit work yesterday. The remaining 11,000 threatened to quit work today if their demand for a \$4.50 minimum wage was not granted.

Howard H. Mahany, commissioner of conciliation from the Labor Department at Washington, has been unable to bring the men and the employes into any agreement. Mahany and committees of the workmen have been referred to H. C. Hunter, attorney for the shipyard owners. The workmen declare the strike would not have been called had Hunter adopted a more conciliatory attitude in dealing with Government representatives.
